

PERFORATED ALUMINUM PANELS

Custom architectural panels / repeatable perforation / project-based fabrication

PUNCHING | LASER CUTTING | CNC ENGRAVING | TOOLING | LEVELING

Surface finishing and selected panel systems are supported through qualified production partners. Final production parameters are confirmed against the approved drawing.

CONFIGURABLE PERFORATION

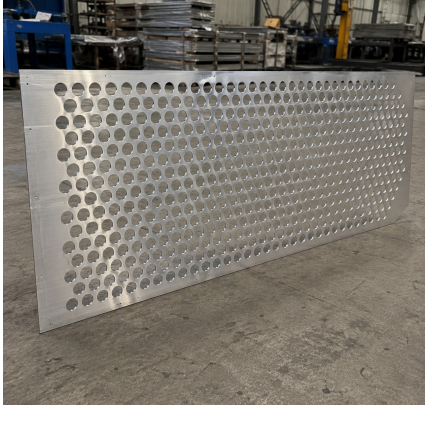

All patterns are visual references. Alloy, thickness, sheet size, hole shape, hole diameter, pitch, arrangement, open area, margin, flatness, finish, packing, lead time and destination are confirmed per inquiry.

ROUND HOLE SERIES

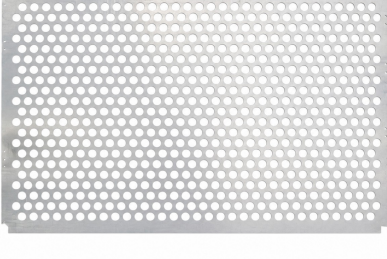

A clean, repeatable visual language for facade, ceiling, screening and ventilation applications.
